Statement on Polychlorinatedbiphenyl (PCB)

Polychlorinatedbiphenyl (PCB), an organic chlorine compound was once widely deployed as dielectric and coolant fluid in electrical devices.

However, PCB is harmful to the environment toxic and classified as a persistent organic pollutant. Therefore, PCB has been banned in most countries for many years.

Endress+Hauser doesn't use any PCB in any of their products and hence we can assure you that all our products are free of PCB.

Endress+Hauser believes that the information it provides above is accurate. The information provided is based on data obtained from ongoing due diligence concerning goods and materials provided by third party suppliers. Endress+Hauser provides such information "AS IS", without any express or implied warranty of any kind. Endress+Hauser reserves the right to update and modify this communication, as it believes necessary or appropriate.
